To Mr. Johnson, our congenial superintendent, whose patience, understanding, high ideals and standards have inspired us throughout this year, with respect and admiration, we, the students of Phillips High School, dedicate the Phillipic of '48.

Administration

GREETINGS TO ALL STUDENTS OF PHILLIPS HIGH SCHOOL:

The 1947-1948 school year has been most enjoyable and I confidently feel that your classroom and activity experiences have been meaningful to you. Your spirit and cooperation has been very pronounced in making this year most interesting and profitable. These experiences of the year have provided opportunities that have contributed toward the development of a more enriched life.

The great importance of education in the world of today is self evident, and the need is greater than at any time in history. Education is not important to the individual only for the reason that it increases one's earning power, it is important because it contributes to the well being of society and our way of life.

It has been the desire of the Board of Education and the administrators of your school that you have all the opportunities that can possibly be provided. To take advantage of these opportunities is the challenge to you.

Lee Johnson

DEAR STUDENTS:

It has been a pleasure and honor to have had the opportunity of working with such a fine enthusiastic student body.

It will be my constant aim to maintain an atmosphere in which you students may work happily and participate in those experiences which enrich your personalities.

I hope each of you will take advantage of your opportunities, and be better prepared to meet the problems of life.

I wish all of you the best.
